
Asghar Abbasi

Python Developer

Objective

As a passionate Python Developer, I am eager to contribute my skills in software development and problem-solving to tackle real-world challenges. With a strong grasp of Python, JavaScript, HTML, and databases, alongside a 5-star Hacker-Rank rating for coding, I am confident in my ability to integrate into your team and deliver impactful solutions. and I aim to assist in debugging, troubleshooting, and resolving software issues in an efficient manner.

Education

Bachelors in Computer Science - Mar 2021 to Present
Iqra University Karachi

Data Mining & Business Intelligence - May 2023 to Sep 2023
IBA City Campus Karachi

Diploma in Computer & Business Management - Jan 2020 to Dec 2020
Shaheen Vocational Training Institute Nawabshah

Intermediate - Feb 2017 to May 2019
Govt: Higher Secondary School Buchari Nawabshah

Projects

Tetris Heist Game: Implemented a secret data-stealing mechanism in a Tetris game, uploads player data into G-Drive while playing. Project highlights potential vulnerabilities in background operations and underscores the importance of secure coding practices. The project utilizes Python, Pygame, Google Drive API, OAuth 2.0, and multi-threading.

E-commerce: Built a full-featured online store using Python (Django) and Bootstrap with essential features like user accounts, product search, shopping cart, payments, and email notifications.

Institute Management: Designed a student and teacher management system in Java (Swing, GUI Builder) with integrated fee collection and data storage using MySQL.

Library Management: Built a comprehensive library management system in Java with a focus on OOP for handling book cataloging, borrowing, and returns.

Amazon Web Scraper: Developed a Python web scraper using BeautifulSoup and Scrapy to extract product information from Amazon, including titles, prices, and reviews.

Experience

Data Cypher Head - Jun,2022 to Jul 2023
Technosaurus

Technosaurus is the Tech society belonging to CS Students at Iqra University, where my role is to manage registrations and prepare labs for workshops.
